

CREATING THE LANGFLOW FOR PDF EXTRACT

Objective:

I am trying to get a summary generated from the PDF uploaded.

Step 1:

I tried using my official PDFs to extract and summarize the information. Providing the screenshot of the PDF.

The screenshot displays a digital form for an annual inspection. At the top, the 'LSPowerGrid' logo is visible. The form is divided into two main sections: 'ANNUAL INSPECTION' and 'INSPECTION DETAILS'. The 'ANNUAL INSPECTION' section contains fields for Inspector Name (Sree QA), Inspection Date (2025-11-21 19:48:51), Structure # (GR-RD-30_01), Segment (Gordon Road to Rotterdam 30 Tie Line), Due Date (2025-11-22 14:00:30), and a Next Step field. The 'INSPECTION DETAILS' section includes fields for Vegetation Issue (Yes), Response Priority (Priority 1 - 24 Hour Action Required), Encroachment (Yes), Notes (Update mobile), and a Photo Reference field.

ANNUAL INSPECTION	
Inspector Name	Sree QA
Inspection Date	2025-11-21 19:48:51
Structure #	GR-RD-30_01
Segment	Gordon Road to Rotterdam 30 Tie Line
Due Date	2025-11-22 14:00:30
Next Step	

INSPECTION DETAILS	
Vegetation Issue	Yes
Response Priority	Priority 1 - 24 Hour Action Required
Encroachment	Yes
Notes	Update mobile
Photo Reference	

Step 2:

Added a prompt template. I used below prompt to generate the Summary

As a Analyst, read the input file and extract the data and give me summary of 2 section.

Section 1: Annual Inspection Pole details.

This should contain as a Summary.

Example: The Structure ABC was inspected by Sree QA on inspection date.

Mention the segment, due date , next steps if they have value.

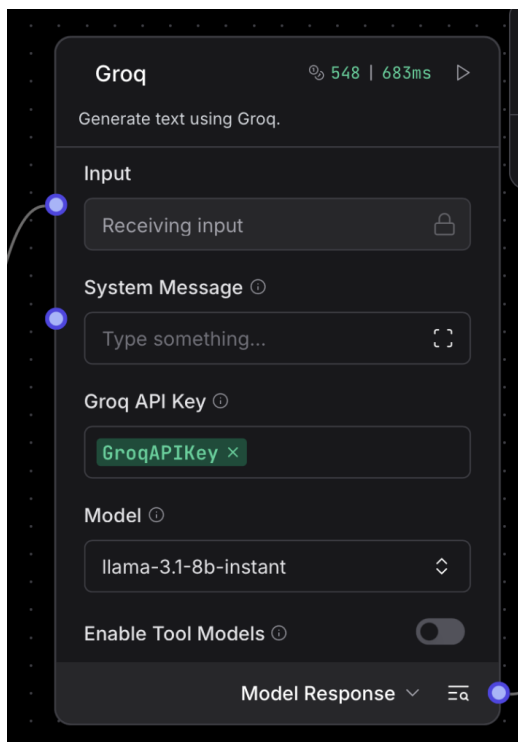

Section 2: Inspection details

Explain the Issue if it's mentioned with the priority and notes like a summary.

{input}

Step 3:

Added Groq model.

Step 4:

Text Output generated based on the prompt given

Based on the provided input file, I will extract the data and provide a summary of the two sections.

****Section 1: Annual Inspection Pole Details****

The Structure GR-RD-30_01 was inspected by Sree QA on inspection date 2025-11-21 19:48:51.

- Segment: Gordon Road to Rotterdam 30 Tie Line

- Due Date: 2025-11-22 14:00:30

- Next Steps: INSPECTION DETAILS (Note: This is not a specific next step, but rather a section title. However, it implies that the next steps are detailed in the INSPECTION DETAILS section.)

****Section 2: Inspection Details****

There are two issues mentioned:

1. ****Vegetation Issue****: This issue has a priority of 1 (24 Hour Action Required). The notes mention "Update mobile" and "Photo Reference".
2. ****Encroachment****: This issue is also mentioned, but no priority or notes are provided.

In summary, the inspection of Structure GR-RD-30_01 revealed two issues: Vegetation Issue with a priority of 1 and Encroachment with no priority or notes.
