

CUSTOMIZING THE API FOR PDF EXTRACT

Objective:

I am going to try customizing the template to fetch the data from PDF.

Step 1:

Navigate to API access under share option.

Step 2:

Navigate to Input Schema.

Step 3:

I have enabled 1 input schema, the Prompt template.

Prompt Template			
Expose Input	Field Name	Description	Current Value
	Template		As a Analyst, read the input file and extract the data and give me summary of 2 section. Section 1: Annual Inspection Pole details. This should contain as a Summary.

Step 4:

Copy the cURL – Mac OS/Linux and import it in the postman

Step 5:

Check for Tweaks in the request body. This is where we can change the payload. I removed section 2 from the prompt template.

```
input_value : "hello world" ,
"tweaks": {
  "Prompt Template-WVKAj": {
    "template": "As a Analyst, read the input file and extract the data and give me summary of 2 section.
    \n\nSection 1: Annual Inspection Pole details.\n\nThis should contain as a Summary.\n\nExample: The
    Structure ABC was inspected by Sree QA on inspection date. \nMentionthe segment, due date , next steps if
    they have value.\n\n{input}"
  }
}
```

Step 6:

I hit the payload and only 1 section is received in the response.

```
results : {
  "text": {
    "text_key": "text",
    "data": {
      "text": "Based on the provided input file, I will extract the data and provide a summary of Section
1: Annual Inspection Pole details.\n\n**Summary:**\n\nThe Structure GR-RD-30_01 was inspected
by Sree QA on 2025-11-21 19:48:51. The segment is Gordon Road to Rotterdam 30 Tie Line, with a
due date of 2025-11-22 14:00:30. The next step is INSPECTION DETAILS.\n\nHere is the extracted
data:\n\n- **Inspector Name:** Sree QA\n- **Inspection Date:** 2025-11-21 19:48:51\n-
**Structure #:** GR-RD-30_01\n- **Segment:** Gordon Road to Rotterdam 30 Tie Line\n- **Due
Date:** 2025-11-22 14:00:30\n- **Next Step:** INSPECTION DETAILS\n\nPlease note that the next
steps mentioned in the original file are INSPECTION DETAILS, Vegetation Issue, Encroachment,
and Response Priority, but the summary only includes the main next step which is INSPECTION
DETAILS.",
      "files": [],
    }
  }
}
```
